February Meeting Minutes

For information on the new 4H amateur radio group, contact the Ohio State University extension office. Janese motioned to accept the treasurer's report, and Jim seconded. The Tech Fest took place on February 15-16. We have the No Buts About It 5K on the last Saturday of March. We also have the upcoming Health Department Run. Jason Bowman has been updating the website. As of the February meeting, there are 54 total members, including Life Members. We received a thank-you letter from the wonderful folks at YDXA for our donation. For new business: A 2 meter antenna may be added to the tower. We discussed T-shirts with the Hamvention logo (shown to the right), and we had a portable antennas discussion from Bob Baker, and then Janese motioned to adjourn the meeting and Bob seconded it.

Shown here (top) is the circular Hamvention 2020 logo. Below is the normal logo.

XWARN Mission

The mission of the Xenia Weather Amateur Radio Net (XWARN) amateur radio club is to conduct weather spotting nets during severe weather and other communication services for the City Of Xenia and all other Greene County communities.

In this capacity, we are set up to provide communication services as required to the Greene County Ohio Public Service Agencies and other local government entities. The communications services provided to the supported agencies may be for emergency purposes or to simply enhance their communications abilities. On an as needed basis XWARN provides similar services to various government entities of our surrounding counties.

Additionally, XWARN provides communications support to various community organizations in support of marathons, 5K runs, 10K runs, bicycle events, etc. to provide health and safety assistance to the participants and sponsors of said events.

In support of these goals, XWARN operates and maintains amateur radio repeaters and other equipment in Greene County.
